- This planning application is contrary to Policy No 5 of the North Northumberland Coast Neighbourhood Plan.
The proposed properties are 4 bed and 5 bed and with multiple en-suite facilities, the largest property at present in the development is 3 bed. Any new properties ideally should adopt an existing design (and size) to complement the existing properties and blend in, supported by the Appeal Decision in 2019 (18/03779/FUL) where permission was refused for a balcony extension and the Appeal dismissed.
- The S106 should be enforced as per the formal agreement.
- The landscaping of the original application was to enhance the nature of the development, this was demanded by the Environmental Impact Assessment and agreed by Northumberland Estates under Clause 25 of the S106. The proposed plot has been planted with young trees.
- The current Ecological Mitigation Strategy proposes 1 onsite measure and 4 off-site measures.
- The ecological mitigation strategy will not mitigate the loss of the woodland area.
